How to use the shortlist

The table keeps the computed ranking. Recommended, Review Candidate and Avoid are different outcomes; being near the top does not turn a review or avoid result into an approval. Compare meaning, pronunciation and the full name before registration.

Name	Full-Name Total	Final Status
Ishani Sharma	32/5	Review Candidate
Veda Sharma	32/5	Review Candidate
Aaradhya Sharma	32/5	Review Candidate

None of these names is a perfect fit yet. Please treat this as a shortlist, say each name out loud, and choose the one that feels natural before using it on school or legal records.

Baby Name Target Plan

Alphabet note: the selected starting alphabet belongs to Chaldean group 1. This group is outside the preferred first-letter groups for this chart, so names are ranked mainly by first-name and full-name totals.

Full Name Targets:	6
Acceptable Full Targets:	6, 5
First Name Targets:	3, 5, 6
First Letter Groups:	3, 5, 6
Preferred First Letters:	C, E, G, H, L, N, S, U, V, W, X
Preferred Premium Compounds:	51, 15, 23, 32, 41, 50, 59, 60, 68, 69, 77, 78, 86, 87, 95, 96

Average / Review Compounds: 33, 24 are excluded from the premium-preference list because the Destiny Grid compound guidance treats them as average rather than premium.

How the two letter checks differ: First Letter Groups and Preferred First Letters come from the general Chaldean letter-value grouping. The child-name rule set separately marks letters as Best, Optional, Safe Third Preference, Manual Review, or Avoid for the child's Pilot Number. When the two checks differ, the workbook status is shown in each name's reason and used in the final ranking.

Verified rule Q1-Q110 Compatibility master filter applied: removed non-friendly target totals 1, 2, 4, 8 where present.

Ranking priority is full-name target match, compound quality, first-name target match, first-letter group, and practical spelling or pronunciation.

Note on Navigator Number: The Navigator is derived purely from the child's date of birth and gender — the chosen name plays no part in this calculation.

Usage Note: The numerologically suitable name itself is the correction. Use the selected spelling consistently on school, family, and public identity records where practical.

Reading the ranking reasons

A compound interpretation is one ranking factor, not necessarily a positive endorsement. The final status and cautions take priority when a reason also mentions a target match or practical spelling.

Keep the spelling exactly as shown

Names and candidate spellings stay in their original Roman letters in both language versions. Every added or repeated letter matters to the displayed total. The Hindi explanation does not replace that exact spelling.
