Manual Review Workflow

- Your submitted questions are reviewed with the birth chart, Pilot, Attendant, Navigator, name vibration, timing, and relevant report modules.
- If a question touches business, relationship, health, money, or property, the response will separate numerology guidance from practical caution.
- You will receive a direct answer, the reason behind it, and a short action list instead of only a yes/no reply.

How to Prepare

- Keep exact spellings, dates, mobile or property numbers ready if they are relevant to the question.
- For business or partnership questions, write down role, investment, decision rights, and current timing.
- For health, legal, investment, or medical matters, consult qualified professionals alongside numerology guidance.
