MARRIAGE COMPATIBILITY

Compatibility Overview

Why friendly checks can still need review

Pilot and Attendant checks are individual parts of the assessment. Read them with number sharing, missing 5/6 support and the final compatibility result. A friendly component does not cancel the cautions elsewhere in the report.

Detailed Analysis

- **Pilot Compatibility:** Friendly This pair is supportive according to the Destiny Grid number compatibility master.
- **Attendant Compatibility:** Friendly.
- **Number Sharing:** Supportive sharing is present between the two grids.
- **5 / 6 Support:** Both 5 and 6 are absent from both charts. In this traditional method, that is a stability caution. Use the remedies as optional support and give practical priority to communication, trust, shared responsibility, and conflict repair. (Partner A lacks 5; Partner A lacks 6; Partner B lacks 5; Partner B lacks 6.)
- **Love vs Arrange Tendency:** Traditional or arranged-marriage indicators are stronger across the two charts.
- **Partner A Tendency:** Traditional or arranged-marriage support is stronger in this chart.
- **Partner B Tendency:** Traditional or arranged-marriage support is stronger in this chart.

Relationship-Safe Action Plan

- Partner A: A wood-crystal bracelet can be used as Mercury-style balancing support for communication, adaptability, and practical movement.
- Partner A: A golden strap metallic watch can be used as indirect Venus/6 support, especially when direct Number 6 supportive practices are not advisable.
- Partner B: A wood-crystal bracelet can be used as Mercury-style balancing support for communication, adaptability, and practical movement.
- Partner B: A golden strap metallic watch can be used as indirect Venus/6 support, especially when direct Number 6 supportive practices are not advisable.
- For marriage delay: sleep in North-West first preference, West second, North third.
- Avoid South-West, South, South-East, North-East bedroom for marriageable person.

Keep communication, family role clarity, missing 5/6 support, name support, and suitable timing guidance in focus.
