## Current Name Analysis

**Manual Review Required: no excellent practical spelling-based option was found without structural compromise. A human review should test pronunciation, documents, and possible controlled use of initials only if the customer approves.**

**Before using a spelling**

If no ready-to-use option is available, keep your current spelling while you request a manual review. Include this report and your order number through the contact page. Do not treat a review-only option as an approved legal spelling.

Your first name total is **13/4**. Alignment status: **Correction Recommended**.

Recommended first-name targets: **1, 5, 6**.

## Master Stroke Target Plan

This report uses the Chaldean name-correction method. Full-name correction is kept on the master roots **5, 6, 1**; roots **2, 3, 4, 7, 8, 9** are avoided for full-name totals.

Best Master Target

**5**

Compound Check

**Check the compound source also, for example 23=5 or 46=1; do not judge only the reduced root.**

Why this target was selected

- Target 5 is the broad balance number and generally gels with Pilot and Attendant.
- Adding 5 completes the 4-5-6 line.
- Adding 5 completes 9-5-1, but this is secondary to 4-5-6 or 2-5-8.

Activation

- Official document change is not required for activation.
- Use the corrected spelling consistently on email, WhatsApp, social media, website, business card, and public profile.
- For business, product, website, and brand names, keep to the chart-approved roots 5/6/1; also verify industry compatibility before final use.

## Manual Review Options

These options hit the numerical targets but may require pronunciation or structural compromises.

PRIYAA SIINGH

5

Manual Review Required

Total:  
32

Selected because it matches the target plan and follows a learned practical spelling pattern.

**32/5 - communication and influence:** Communication, influence, public success, flexible planning and Mercury visibility.

Practicality Score

|                             |                 |
|-----------------------------|-----------------|
| Numerology Fit:             | Strong          |
| Pronunciation Safety:       | Review Required |
| Public Use Practicality:    | Review Required |
| Documentation Practicality: | Review Required |

Numerologically recommended, but spelling requires manual review before legal/document use.

## Final Recommendation

---

[Contact support with your report and order number](#)

Manual Review Required: no excellent practical spelling-based option was found without structural compromise. A human review should test pronunciation, documents, and possible controlled use of initials only if the customer approves.

## Activation Guidance

---

Use the corrected name consistently on social media, WhatsApp, email signature, business card, name plate, school/office records where practical, and public profiles. Legal document change is optional and should be done only if practical.

The correction works through consistent public usage. Keep the spelling identical across email IDs, WhatsApp display, social media profiles, business cards, name plates, invoices, resumes, websites, and public directories wherever practical.
